

EDUCATION

- **Guru Gobind Singh Indraprastha University** New Delhi, India
B.Tech in Information Technology ; CGPA: 9.48 (Till 3rd semester) *Dec. 2020 – Aug. 2024*

EXPERIENCE

- **Problem Setter at Codechef (ADGTM)** New Delhi, India
Intern *Jan 2022 - Present*
 - Created more than 60 programming problems for various coding competitions.
 - Generating multiple input/output test sets for each problem.
 - Tested multiple programming challenges for the platform.

PROJECTS

- Weather App — HTML, CSS, Javascript, NodeJS, ExpressJS, APIs
 - Developed a web based application that visualizes the local temperature and the weather condition for a particular region that user wants to fetch.
 - Github : **Weather-webApp** Live : **Weather-webApp**
- Task Manager API — NodeJS, ExpressJS, MongoDB, Mongoose, Postman
 - Created an API that follows a RESTful API design architecture.
 - The API sends an email notification upon registration and deactivation of the user's account. It also allows the users to use CRUD operations in their database.
 - Github : **Task Manager API**
- Chat App — HTML, CSS, Javascript, NodeJS, ExpressJS, Web Sockets, Socket.io
 - Developed a real time chat application that uses web sockets, so that users can join a room and chat with individuals in that specific room.
 - As users enter and leave the room, the room list updates and an admin message announces the change.
 - Github : **Chat App** Live : **Web Chat**

PROGRAMMING ACHIEVEMENTS

- Solved more than 600 problems in various coding platform.
- 3* (Highest Rating : 1732 at Codechef).
- Newbie (Highest Rating : 909) at Codeforces.

PROGRAMMING SKILLS

- **Technical:** Java, Javascript, Data Structure, Algorithm, NodeJS, ExpressJS, MongoDB, Git, HTML, CSS
- **Non Technical:** Teamwork, Leadership, Versatility, Problem Solving
